

page. Check NAV

CANADA'S Canada Flight Supplements and Water Aerodrome Supplements.

If flight will be in Controlled Airspace or Restricted Airspace, confirm that drone is accepted for Controlled Airspace operation. Secure permission from airspace authority and understand procedures. Flights in Controlled Airspace will require an approved NAV CANADA RPAS Flight Authorization Request. Check app for safety flying zones. Check NRC Drone Site Selection web page. Check Designated Airspace Handbook.

If flight will be nearer than 5.6 km (3 NM) from Site

Bystander Locations

If operation will include flying between 5m and 30m (horizontally) away from bystanders ensure that drone is approved for Flying Near People.

If operation will include flying closer than 5m horizontally from bystanders ensure that drone is approved for Flying Over People.

Ensure crew and other involved parties are aware of the flight and stand clear.

Aircraft Check

Check that drone is registered, and registration
